Login

Desktop Version

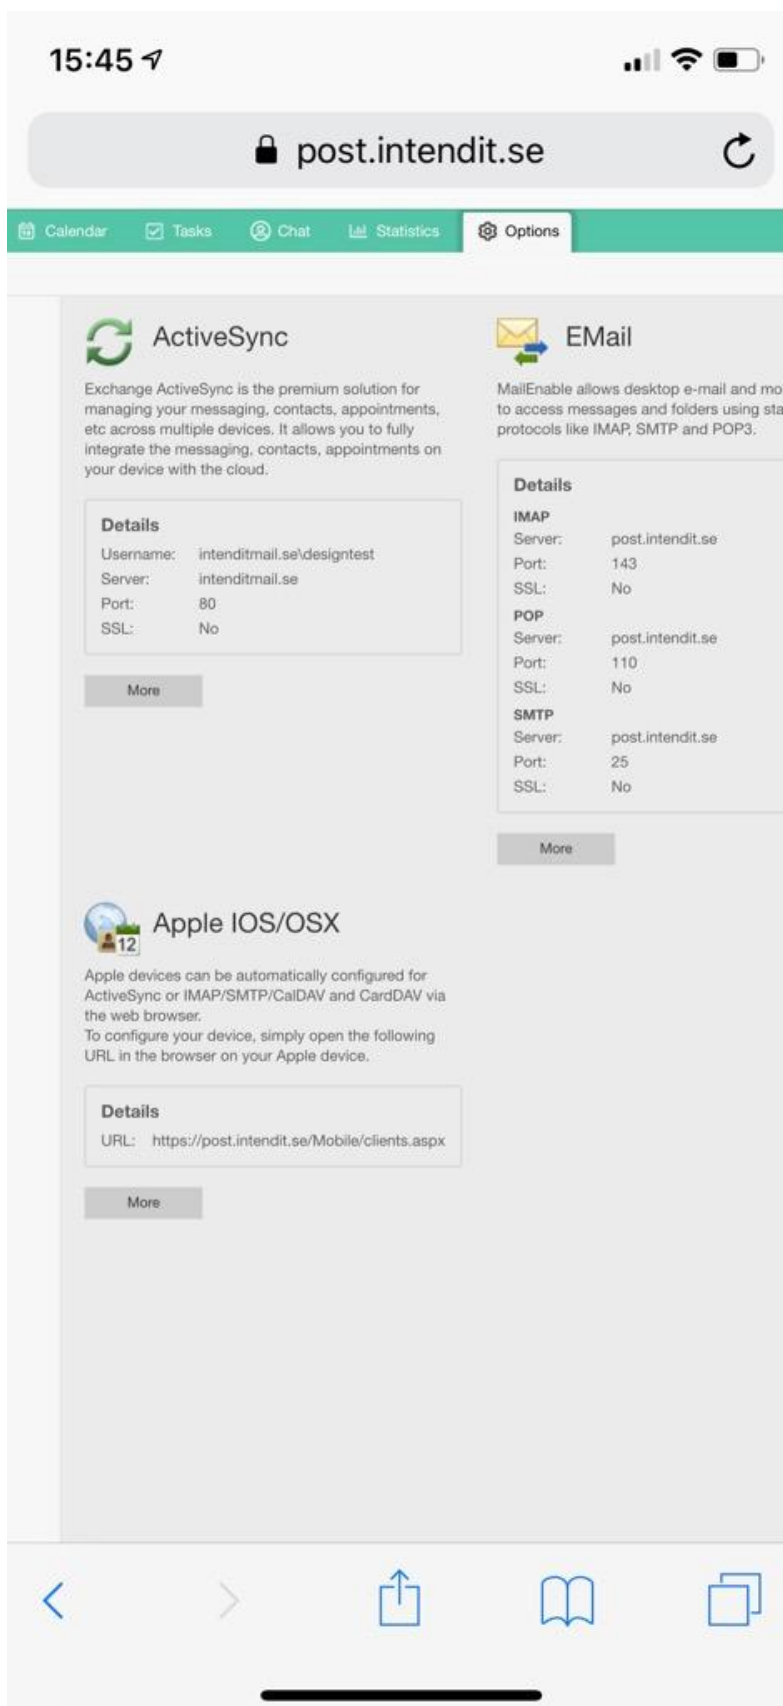

- Now you will see the webmail as you would in desktop mode (Don't worry you can activate mobile mode in the footer after you've configured your email)

3. In the top right corner, press the button called "Options" and you'll get a new menu that looks like this.

- Now press the option called "Client Settings" in the left menu bar. This will open up a new view where we can configure the webmail profile in your Iphone. Once you enter this view, press the button "More" under the box called "Apple IOS/OSX"

5. Now you've come to a page where you shall enter your E-mailadress and password. And make sure that before you press configure you uncheck the button "Exchange ActiveSync" This is very important.

Automatic Configuration

Enter your email address:

Designetest@intenditmail.se

Enter your password:

.....

Select the services you wish to configure:

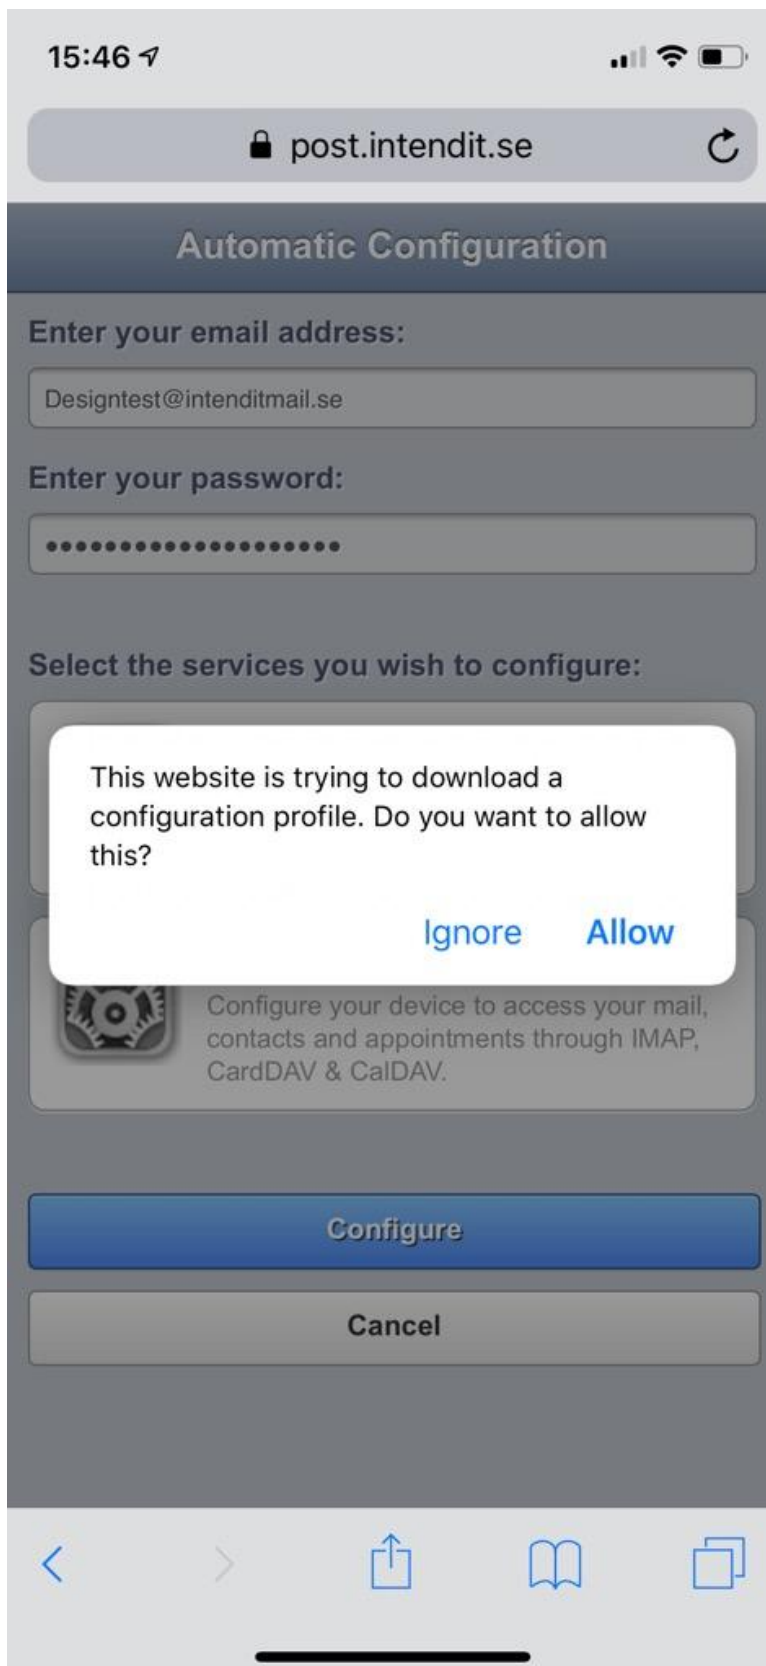

Exchange ActiveSync
Configure your device to access your mail, contacts and appointments through ActiveSync.

IMAP, CardDAV & CalDAV
Configure your device to access your mail, contacts and appointments through IMAP, CardDAV & CalDAV.

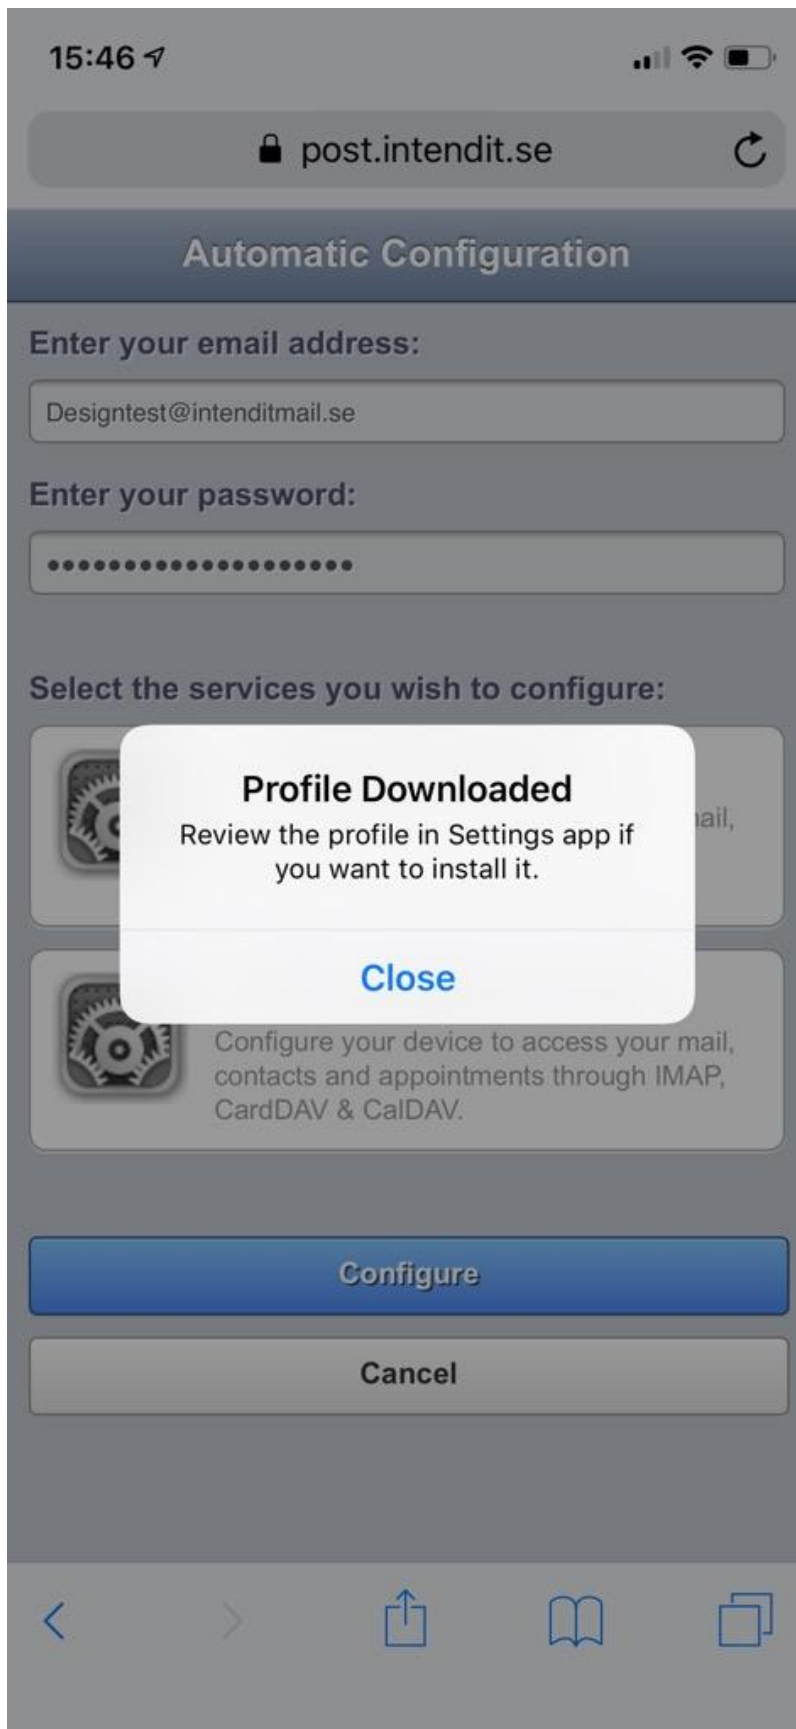

Configure

Cancel

- Now press the button "Configure" and you'll get a popup that says the following:
"This website is trying to download a configuration profile. Do you want to allow this?"
Press "Allow"

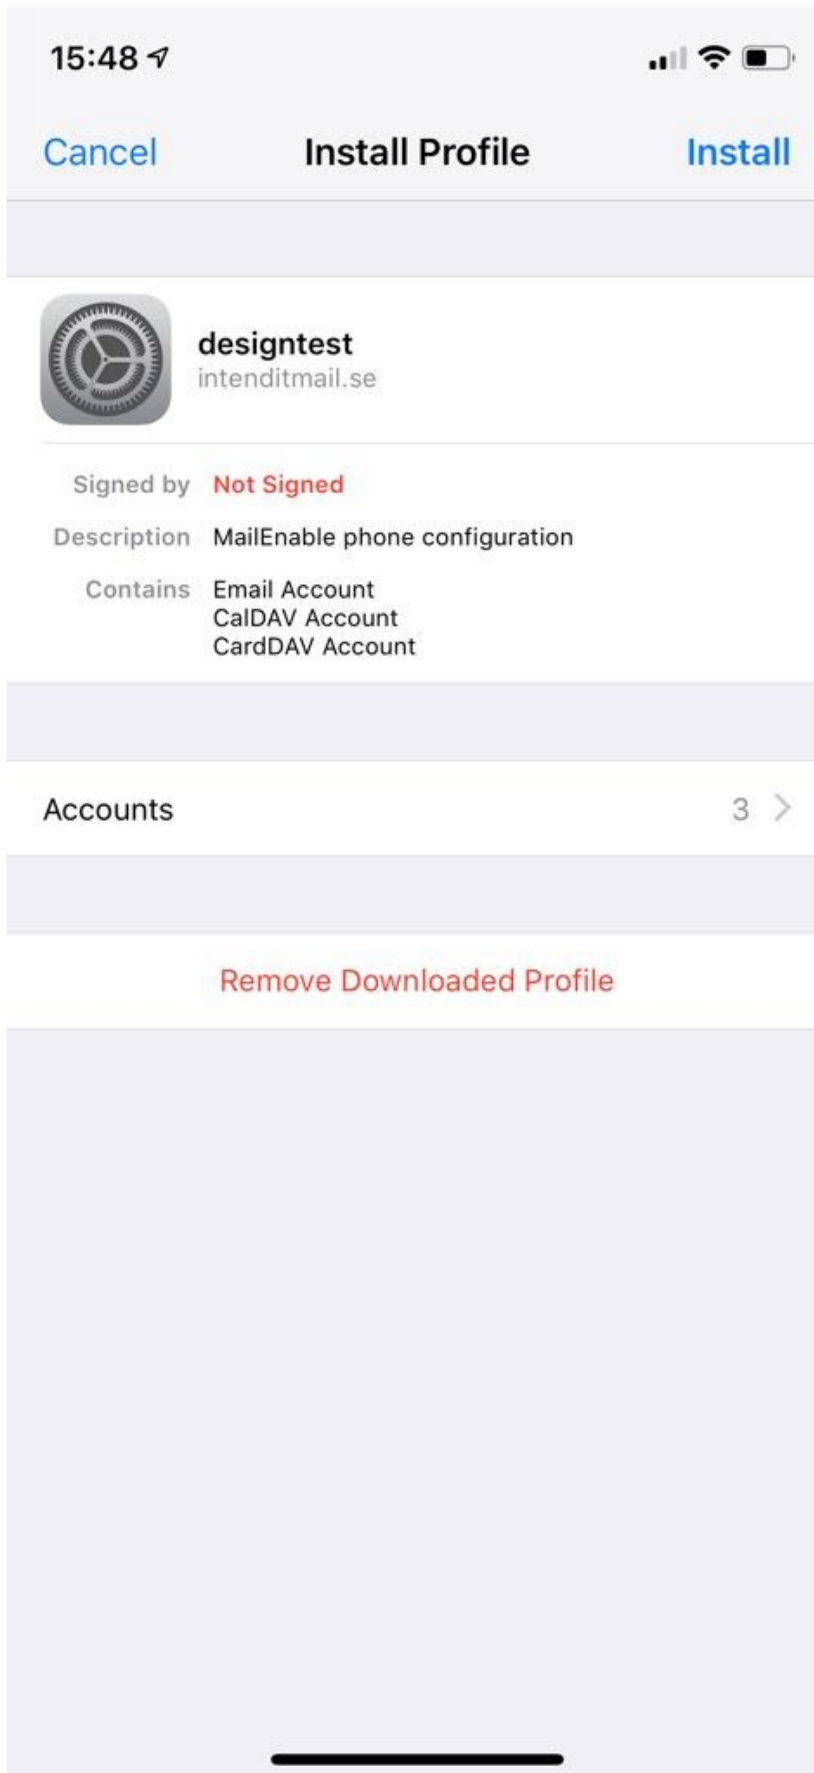

7. The configuration profile will now be downloaded, and in order to install it you now need to go to your settings in your Iphone.

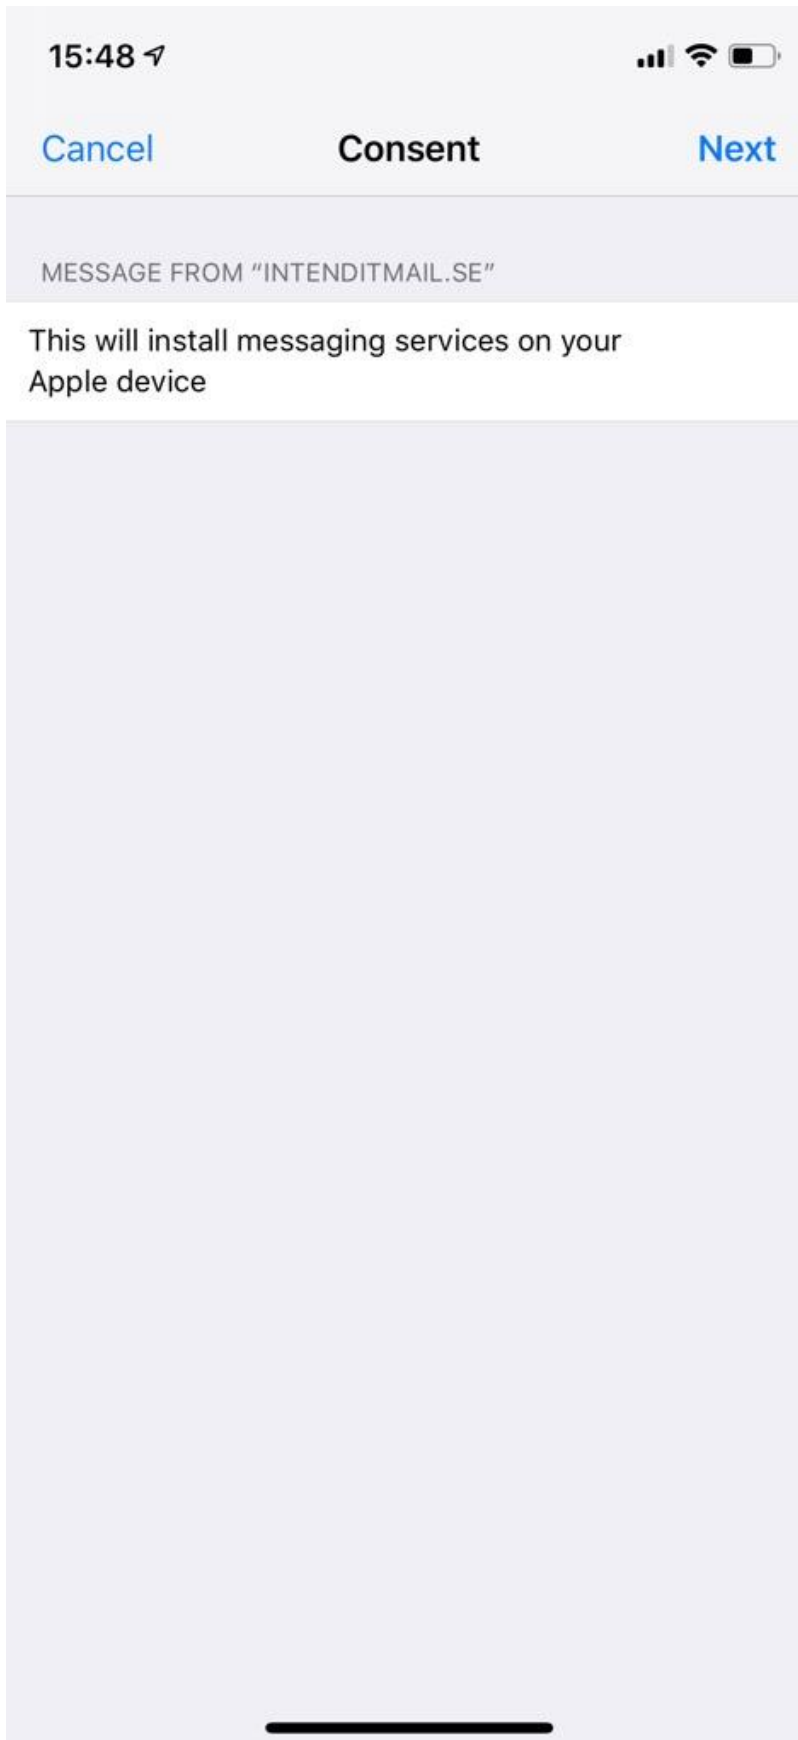

8. As you see in the picture below, there is now a new option in your settings. Called "Profile Downloaded" Press this

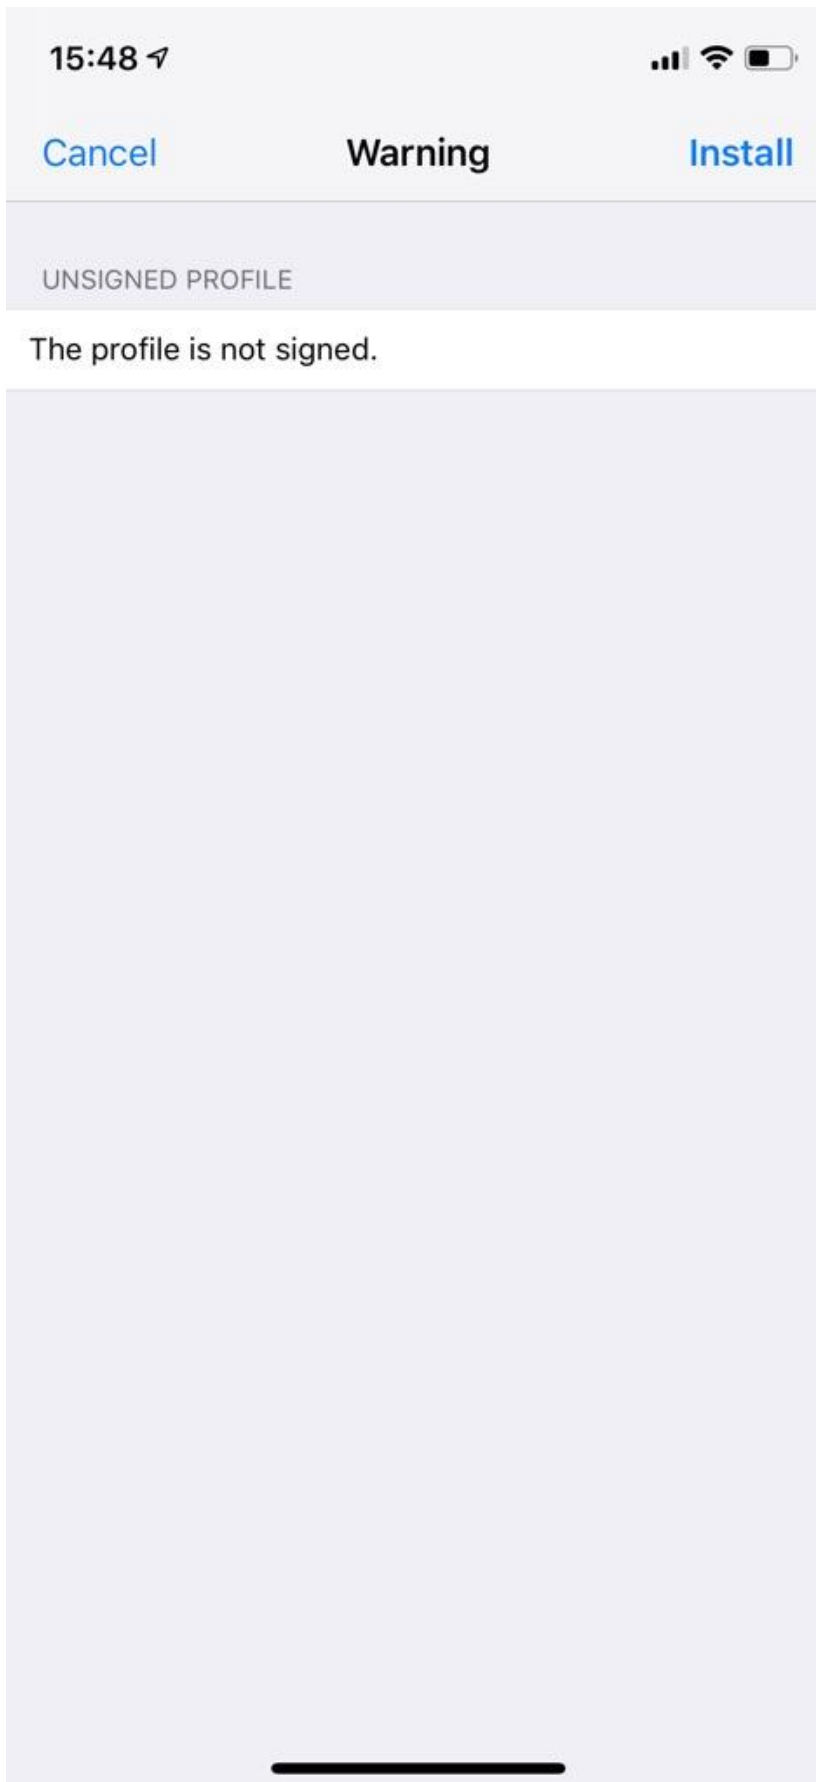

9. Now you get a view of the profile it's trying to create for you. Press the button "Install" in the top right corner.

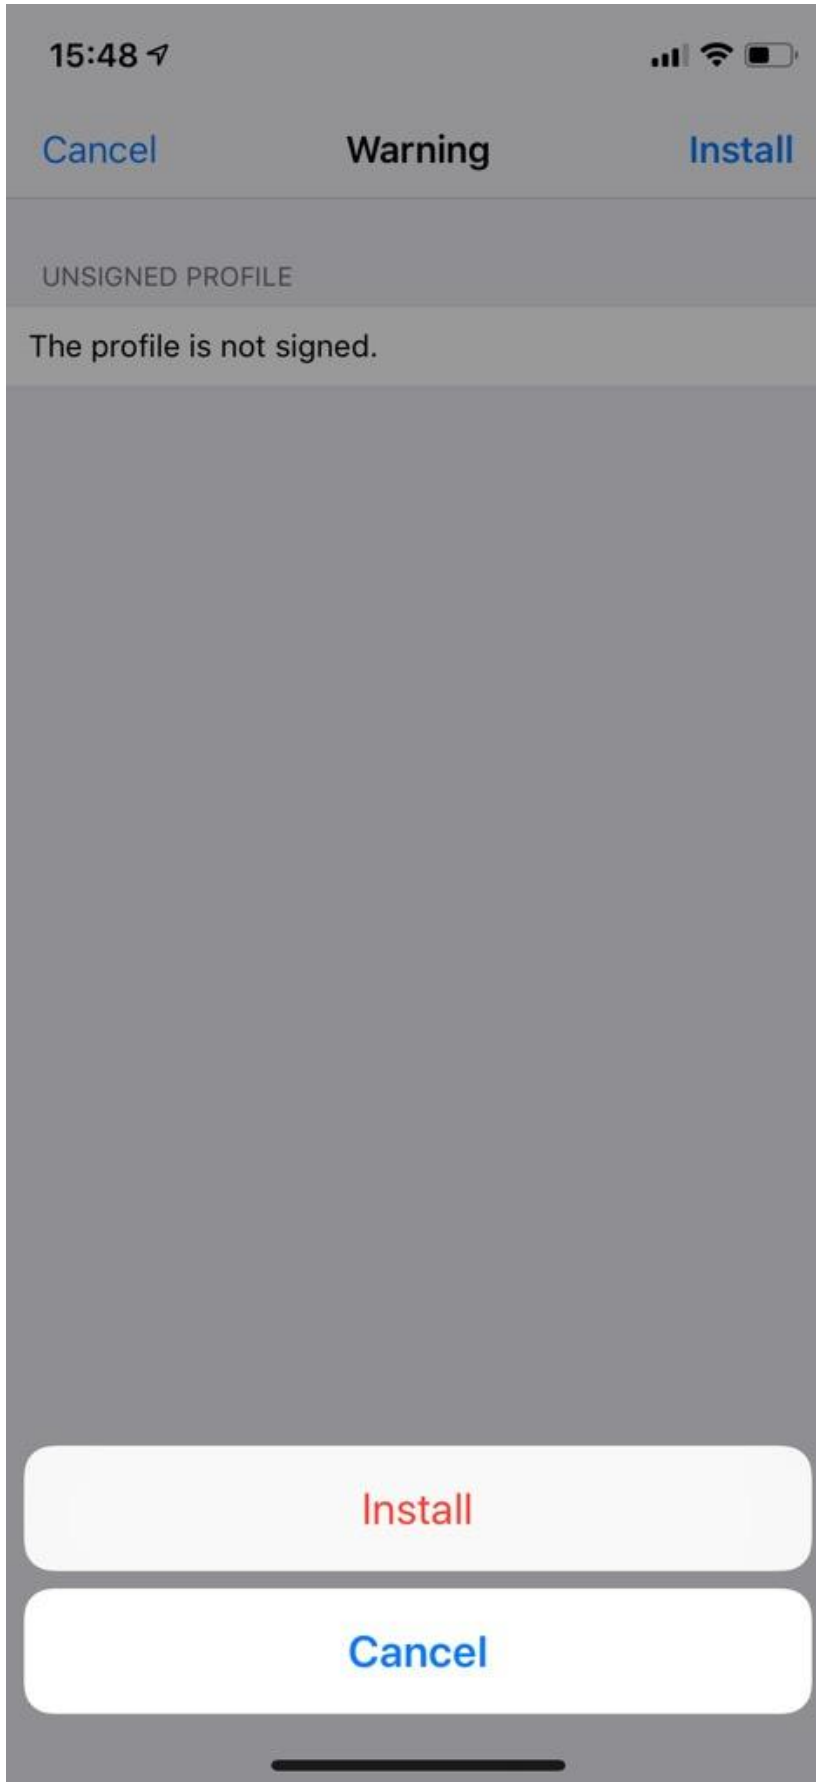

10. The next step requires that you consent to the profile installing the messaging service, the service in this case is the Account profile for your E-mail.

11. Now press Install to install the profile.

12. You will now get a popup with the last confirmation of installment.

13. And now you're done. You can now access your mail through this service.
